WRRC SCRUTINEERING SERVICES - Technical Requirements in the Hall

REQUIREMENT	DESCRIPTION
1. Internet Connection in the hall, on the protocol desk	Possible solutions: • Secure WLAN, without public access, or • LAN connection, per Ethernet cable The organizer must provide full access to internet (unrestricted upload/download), also via FTP-protocols

2. Printer for the protocol
  2.1. Spare toner(s)
  2.2. Printer paper (2 blocks x 500 sheets)
  2.3. USB connection cable
  2.4. CD (or USB stick) with drivers for Windows 10 (64 bit)
	Normal fast laser printer, for example:
	• HP LaserJet of newer generation
	
	Preferably NO multifunction printers, NO big professional coppy-machines with printer functionalities, NO complicated network printers.
	
	The organizer has to announce to the assigned protocol persons the maker/type of the printer at least 2 weeks in advance.

3. Electric power on the desks for judges	Electric connection for judging tablets is needed FOR EACH JUDGE and each OBSERVER
4. Beamer and screen for the presentation of couples/formations and results OR: 5. LED Video-Wall for the presentation of couples/formations and results	Powerful light-output needed, minimal resolution 1024x768 pixels Minimal dimensions: 4 x 3 m • Beamer and the presentation screen can be replaced with the video-wall of the same minimal dimensions, minimal resolution: 1024x760 pixels. • Connection to the presentation computer of the WRRC: VGA or HDMI cable, on the scrutineers desk • If the connection cable to the WRRC computer cannot be provided on the scrutineers desk, the organizer must provide separate computer for the connection of the beamer/video-wall (standard notebook PC with Windows 7/8/10) with wired connection over Ethernet-cable (LAN) from the scrutineers desk to the presentation computer
6. Scrutineers desk	• The desk must be placed near the judging panel, with unrestricted visual contact and possibility to reach the judges desks as quick as possible • At least 3 m long with chairs for 2 protocol persons and 1 supervisor • Electric connection on the desk, with possibility to connect at least 8 individual items (printer, computers, routers) • The desk must be secured from the public access with the physical barrier, at least 70 cm high, and 2 m away from the desk
